RECOMMENDED DECISION AND ORDER

[Page 2]

This proceeding arises under Section 210 of Title 11 of the Energy Reorganization Act of 1974, codified at 42 U.S.C. § 5851, and the regulations issued thereunder at 29 C.F.R. Part 24.

This case involves allegations that a representative of Jersey Central Power and Light made improper allegations as to the Claimant's employment. The Department of Labor, in a letter of November 26, 1985, indicated that its initial investigation found that the statements were made for reasons other than Mr. Drew's "involvement with the NRC or the filing of an action under the Energy Reorganization Act of 1974." In a telegram dated December 11, 1985, Mr. Drew requested a hearing before an Administrative Law Judge.

A hearing was held on March 5, 1986 in Trenton, New Jersey. At the hearing, the parties informed the undersigned Administrative Law Judge that they had reached an agreement, found on pages 3 through 5 of the hearing transcript.

Upon consideration of the record and the settlement agreement, it is hereby ORDERED that the settlement is APPROVED and incorporated herein by reference. This settlement agreement shall constitute my findings and conclusions of law. The terms of the agreement shall be final and binding upon all parties.
